

TAKARAKOSAN

2023

Valentine's Day

ECO FRIENDLY!

Do not let helium-filled balloons fly away and get caught in trees or power lines.

After enjoying with balloons, remove the helium gas before disposing appropriately.

Do not inhale the helium gas.

There is a risk of small children (less than 8 years old) swallowing or choking on balloons that are not yet inflated or have burst.

You can save the Helium Gas ♡

ibrex™
Float over
30 days!!

Attach weights when enjoying with helium-filled balloons.

ibrex™

Made by HIGH GAS BARRIER FILM

Floating the longest time in the World!!

ibrex™

Our ibrex™ Series balloons maintain their shape and float for 30 days after being filled with helium. What's more, the 14" ibrex™ is the world's smallest such balloon. They float for longer, keeping their shape and looking like new. The smaller size means less helium and less time to refill the balloon.

You can save the Helium Gas ♥
Float over 30 days!!

UPRIGHT BALLOON

PAT.662E007

We won the Grand Prize for New Products Contest of Sales Promotion Section in International Gift Show Osaka, 2016 spring.

AQUA BALLOON™

Features

Aqua Balloon has outstanding gloss, resilience and expandability and becomes an almost perfect sphere when inflated.

The film surface retains transparency.

It is extremely soft and pleasant to touch.

You can heat-seal Aqua Balloon above the cover film.

Wide (mm)	470	330	235	125	70
Code	0201 32 0012	0201 32 0014	0201 32 0011	0201 32 0010	0201 32 0013
Wide (inch)	19	13	9	5	3

<Guide to sizes when inflated / Recommended Inflating Devices> ★ indicates products that float.

Aqua Balloon Size	Minimum	Maximum	Recommended device	Cautions
470mm	★650mm	★800mm	Air Force 4™ Inflator	For inflating, use the device with fast inflating speed. Inflating with a low-speed device (handpump or mini blower) could cause the balloon to lose its left-right balance.
330mm	★380mm	★600mm		
235mm	★270mm	★420mm		
125mm	130mm	★230mm	Handpump or mini blower	For inflating, use the device with slow inflating speed.
70mm	75mm	130mm		

Tips about inflate

- If the Left-Right Balance of Aqua was lost when you inflate, Please inflate up to Maximum Size and then Deflate to your size. It will improve this issue.
- The barrier characteristics of helium gas in the Aqua Balloon are no different from those in rubber balloons. If inserting a rubber balloon into the Aqua Balloon and floating for a long time, please use HIFLOAT®.

“Working For Our Customers”

Business Philosophy:

Our key principle is to think and act from the perspective of our customers, with the aim of contributing to our customers and the development of our company through the provision of beneficial information, products and services that meet with changes to the times.

Our policy of “**working for our customers**” could be rephrased as “**acting and thinking from the perspective of our customers.**”

To achieve this, it is vital to remain loyal to the fundamentals of business at all times, work hard to accrue a gradual accumulation of anything and everything that will make our customers happy, and maintain a mentality of always prioritizing the customer.

This results in building a relationship of trust with the customer, and acquiring their confidence.

It is the fundamental philosophy of our company to act boldly and decisively, taking on a wide range of challenges to keep our customers happy, including responding to changing tastes, and continuing to provide beneficial information, products and services.
