Go Forward

“Working For Our Customers”

Our policy of “**working for our customers**” could be rephrased as “**acting and thinking from the perspective of our customers.**”

To achieve this, it is vital to remain loyal to the fundamentals of business at all times, work hard to accrue a gradual accumulation of anything and everything that will make our customers happy, and maintain a mentality of always prioritizing the customer.

This results in building a relationship of trust with the customer, and acquiring their confidence.

It is the fundamental philosophy of our company to act boldly and decisively, taking on a wide range of challenges to keep our customers happy, including responding to changing tastes, and continuing to provide beneficial information, products and services.

Web

A vibrant rainbow with multiple bands of color (red, orange, yellow, green, blue, purple) arches across the top half of the page against a light blue sky. Several white, fluffy clouds are scattered throughout the sky. At the bottom, a green grassy field contains silhouettes of various animals: a giraffe, a rabbit, a cow, and two deer, along with some small trees and flowers.

Don't let go. Always attach
a weight to all helium filled
balloons.

Pin it and Bin it .
Always dispose of balloons
safely and responsibly.

Do not inhale helium.

Do not allow children under the age
of eight to play with uninflated
balloons without supervision.

Save balloon gas
& Save money!

ibrex™
Amazing float
time of over
30 days!!

A red, heart-shaped foil balloon is shown floating in the sky. It has a small silver weight attached to its string.

Less helium means kinder
to our planet.

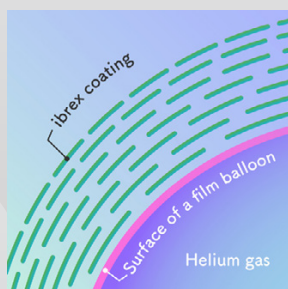

Reducing Helium Gas Usage
Through Special Coating
for a Sustainable Future

Ibrex is a balloon designed to stay afloat for around a month by applying a special coating to its surface, which prevents gas leakage.

The features of Ibrex

Approximately one month of floating
with special coating

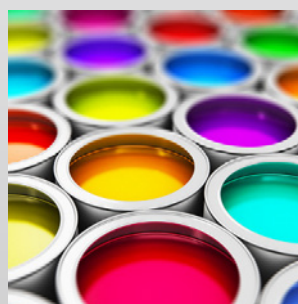

Because it's covered with coating chips, it takes approximately 720 hours (1 month) for the gas to escape.

Comparison with Each Balloon
Amount of Helium Gas Required to Float a One-Month
Balloon. Internal company validation.

ibrex 14-inch	Approx. 8L
Standard Foil 18-inch	Approx. 56L
Rubber 11-inch	Approx. 450L

Using environmentally friendly ink

We use ink that incorporates 35% biomass-derived materials for printing. With few exceptions, our printing is conducted at a Green Printing Certified Facility*.

*The Green Printing Facility Certification Program is an initiative by the Japan Federation of Printing

Industries that objectively evaluates and certifies environmentally conscious printing facilities based on their adherence to green standards.

Waste materials are transformed into
RPF* for energy use

Waste materials are repurposed into RPF, serving as an alternative fuel to natural resources.

*RPF, an abbreviation for Refuse Paper & Plastic Fuel, constitutes a premium solid fuel derived mainly from industrial waste materials, particularly recycled paper and non-recyclable plastics.

By using Ibrex, we can contribute to the reduction of helium gas usage, a valuable resource, and further the development of a sustainable society.

The reason why **ibrex™** is chosen

ibrex™
Amazing float
time of over
30 days!!

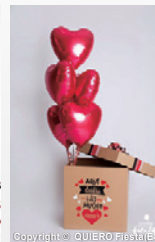

To add more value

Reliable, time-saving, worry free deliveries

Ibrex is an appropriate solution for box delivery.
Its incredible long float time enables balloons to be inflated before shipping.
Using less helium makes it more eco-friendly for our planet.

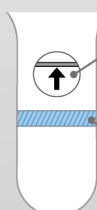

To customize balloons

Customized Ibrex balloons make a great gift and are perfect for personalization using Cameo, Circuit, or other Vinyl cutting machines.
They retain their shape longer, staying fresh like new!

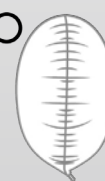

1. DO NOT use a latex regulator to inflate ibrex balloons!
2. A Foil regulator automatically inflates ibrex balloons to the perfect pressure and size with wrinkle.
3. DO NOT inflate too much and by high pressure ibrex balloons, organization will be broken, and doesn't work High Barrier performance.

Inflate here with gas

No!!

Balloon Care:

- A foil balloon can appear deflated in cold air, but it will fill out when warmed up.
- DO NOT expose foil balloons to extreme heat or they can burst.
- Balloons float differently depends on altitudes. The lift ability may decrease under higher altitudes.
- Do Not release helium-filled FOIL BALLOONS outdoors
 - * Foil Balloons are **NOT Biodegradable**.
 - * Foil Balloons can **cause power outages**.
